SHEQ Policy

We at DELEVEX 909 – suppliers and manufacturers of mining supplies & industrial rental requirements are committed to, set standards for sustainable development and continual improvement on a safe and legal manner. We will never compromise our safety, health and environmental standards and procedures in the quest for other business priorities.

To achieve this we will:

- Develop, implement and maintain an integrated safety, health & environmental management system based on OHSACT standards.
- We will drive continual improvement through setting of objectives and targets based on risk assessment methodology, conduct regular reviews of the systems and measure our performance through management self-audits.
- Comply with all applicable laws, regulations, company policies & procedures and client requirements.
- Take due care to prevent harm to the environment, production loss, property damage, work related injuries and ensure that activities are safe and healthy for employees, contractors and visitors who come into contact with our work environment.
- Train employees on issues of safety, health & environmental management, to ensure sustainable performance by encouraging overall participation in safety, health and environmental initiatives.
- Provide employees with necessary training and equipment for safe and healthy operations.
- Commit ourselves to continual improve on the supplying and manufacturing of all mining supplies and industrial rentals.
- Communicate our safety, health & environmental policy to all employees, contractors and visitors. The policy will be reviewed annually by senior management to ensure that it is relevant and appropriate to DELEVEX 909. Any changes or updates to the policy will be communicated to all employees as soon as practicable.
